

2023 Updates

In 2023, Michigan State University enhanced the Counseling & Mental Health Services reimbursement program by adding and expanding eligible provider types, and by extending potential eligibility to some services. These changes were a result of feedback received from MSU survivors.

MSU added and expanded eligible providers to include:

- Primary Care Physicians (PCP) for treatment and maintenance of mental health services such as prescribing eligible medications, medication maintenance, and referrals for medical procedures for related physical injuries in writing.

MSU extended potential eligibility to the following services:

- Partial Hospitalization for treatments related to mental health, which may be submitted for consideration.
